

## ■ SAFETY INFORMATION

Follow all safety guidelines. Read all instructions before using.

- This air purifier is only meant to be used with the Hathaspace HSP002.
- After unwrapping, discard plastic and keep away from children.
- Damaged replacement filters may not properly purify the air.
- Contact our team immediately if you have received a damaged replacement filter set.

## ■ MAINTENANCE GUIDELINES

To maintain the performance of the air purifier and purification effect, we advise to replace the filters every 4 months or 3000 hours.

## ■ PURCHASING ADDITIONAL REPLACEMENT FILTERS

To ensure the warranty for your air purifier remains active and to avoid shortening the life of your air purifier, use only certified Hathaspace filters. To purchase more replacement filters, go to [hathaspace.com/filterclub](https://hathaspace.com/filterclub) or scan the QR code to the right with your smart phone camera.

For more information on filters, you can visit our official website [www.hathaspace.com](https://www.hathaspace.com).

 HATHASPACE

# PURE AIR, ALWAYS.

HEPA 1-Filter Pack  
for HSP002

**H13**  
FILTER

## ■ HOW TO REMOVE FILTERS

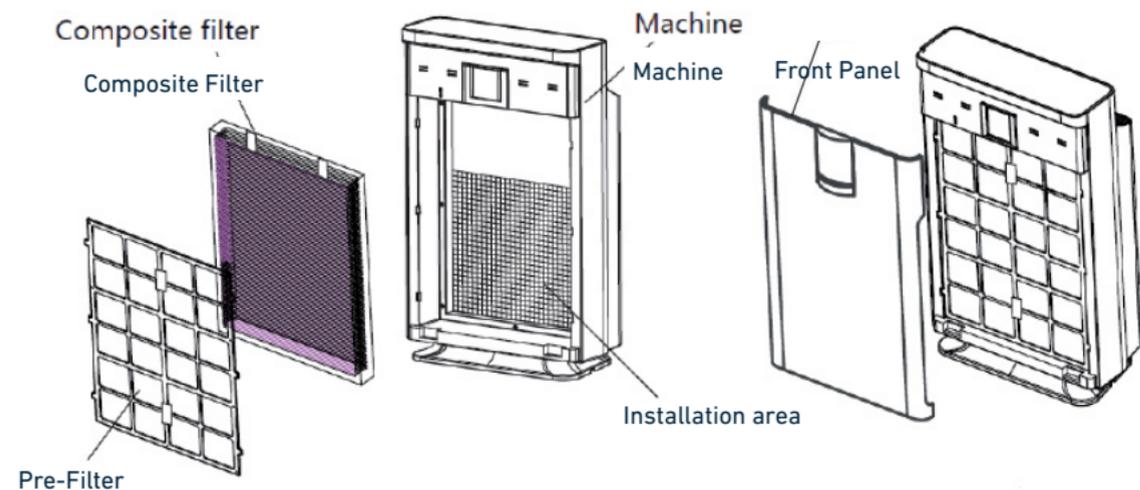

1. Removing the Front Panel: Hold both sides of the front panel and pull towards you until the panel disconnects from the magnet. Do not pull too hard, to avoid damage.

2. Removing the Pre-Filter: Grab the center holders and lightly pull. The Pre-Filter will pop out.

3. Removing the Composite Filter: Use the white tabs to pull the filter out.

## ■ FILTER INSTALLATION

1. Installing the Composite Filter: Remove the polybag first and then place the filter inside with tabs facing you.

2. Installing the Pre-Filter: Place the Pre-Filter in the purifier by fitting the plastic pegs in the corresponding slots.

3. Installing the Front Panel: First, place the bottom of the front panel in the slots at the bottom of the unit and then close the top of the panel. The magnets at the top of the purifier will keep the front panel secure.
